Strange And when Walter forwarded the email to me the date stamp disappeared on his original and the one he forwarded.

The attachment was a forwarded email from Mike Boufis. It looks as though Mike sent it to the group I sent the meeting notes to last week, but he left my name off.

Hopefully you got it.

I will forward again.

Doug

Hi Jim

Do you know whether the data is validated?

I know we had promised to get validated data out within a given timeframe. I wouldn't be surprised if we are still within the timeframe....it would certainly be nice if we were.
